Art Unit: 3726

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-~~5~~<sup>7</sup>, drawn to a process of using a blank, classified in class 29, subclass 889.
- II. Claims 5-7, drawn to a blank, classified in class 428.

Inventions of Group II and of Group I are related as product and process of use.

The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the blank as claimed can be used in another and materially different process of using such as in manufacturing other engine parts .

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Irene Cuda-Rosenbaum whose telephone number is 703-308-1792. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Hughes can be reached on 308-1148. The fax phone numbers for the
